

BEST AUDIO VISUAL SERVICE PRODUCTION

**WINNER:
LOGIC INTEGRATION**

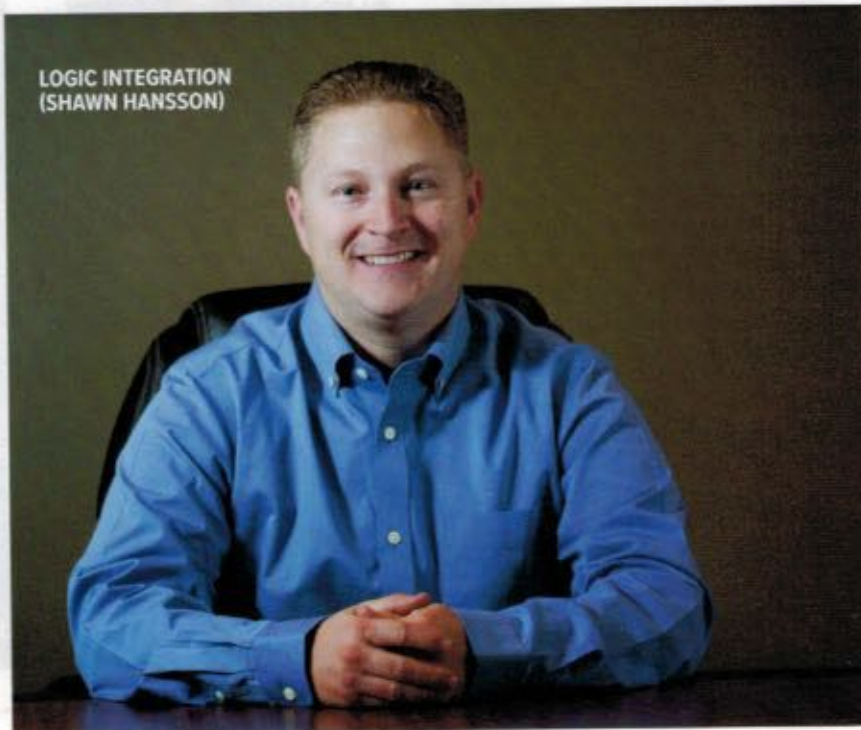

logicav.net

Logic Integration helps clients make informed decisions about the brands and technologies that will work for them. The company provides comprehensive and thoughtful system design up front to achieve the best balance of functionality, reliability and aesthetics. Its approach enables it to avoid costly mistakes or change orders, having to do something twice or tearing up walls after they've been closed. Logic Integration pays careful attention to the details involved in smart technology and integrated systems to ensure they are easy to use, deliver consistent performance and allow for future expansion or upgrades.

BEST IT SERVICES

**WINNER:
LIVE CONSULTING IT SUPPORT**

liveconsulting.com

Live Consulting IT Support provides IT managed services and IT consulting for a wide range of companies. The company started in 2004 with the goal of providing small and medium-sized businesses the same level of services as large corporations but with less computer-speak. Live Consulting provides a free audit to assess the current state of a company's IT, which helps it determine the best options for moving forward. The company takes a team approach so that not just one person understands a business' system. Live Consulting also prides itself on equipping clients with information that enables them to make the best decisions on how to protect their businesses.
